

MIDDLEWARE OPTIMIZATION LICENSE ASSESSMENT (OLA)

Maximize Savings and Performance Gains with Our Rapid Assessment

As an AWS Advanced Technology Partner, IO Connect helps fast-track your middleware integration and transformation journey.

How We Can Transform Your Business

Maximize Savings

Realize potential savings of 40% on middleware costs

Comprehensive Analysis

Receive a detailed analysis with financial and technological recommendations

Per Transaction Cost Analysis

Understand the per-transaction cost for both current and optimized middleware deployment, based on chosen approach

Our Approach

One-Day Workshop

- Understand business model, objectives, and current infrastructure
- Gather licensing and billing information
- Deploy AWS monitoring agent

2-3 Week Data Gathering and Evaluation

- Assess performance, licensing, reliability, cost efficiency, security, compliance, seasonality, team skills, and executive sponsorship

1 Day Workshop Up to **40%** Savings in Year 1

3 Week Turnaround Up to **80%** Savings in Year 2 Onwards

DELIVERABLES

Evaluate Current Spend

Assess licensing and infrastructure costs.

Analyze Transactional Flows

Examine data paths and transactional flows.

Recommendations for Optimization

Propose strategies for reducing licensing and infrastructure costs.

Estimated Savings Breakdown

Provide a detailed breakdown of potential savings based on the recommended approach.

Documentation

Outline the existing middleware architecture for clarity.

Formal Proposal

Present a formal proposal with preliminary costs and time estimates for the optimization process.
