

VMware ARCHITECTURE AND GROWTH PREPAREDNESS REVIEW (WAR)

Our Technical Architecture review provides you with a blueprint for improvement and growth, plus addresses economics and data privacy regulations.

How We Can Transform Your Business

Seamless Architecture Planning

Discover key concepts, design principles, and architectural best practices for designing and running workloads in a cloud environment.

Maximize Savings

If your VMware deployment is underperforming, it is also costing more than it should. We provide insights into inefficiencies and mitigation approaches.

Comprehensive Analysis

Our review is uniquely designed to address VMware users (on-premises), ensuring infrastructure and application architecture is aligned with cloud best practices.

Our Approach

One-Day Workshop

- Understand business model, objectives, and outcomes.
- Assess current application architecture, deployment, and infrastructure.

2 Week Evaluation and Architecture Design Review

- This assessment will enable you to identify where VMC on AWS, AWS Aurora, EC2, S3, DynamoDB, and more can improve performance, scalability, and uptime, including the associated cost implications.

A Blueprint for Improvement and Growth

1 Day Workshop **2** Week Turnaround

About IO Connect

IO Connect Services specializes in addressing the unique requirements of legacy applications. We design tailored integration solutions and provide robust support to ensure a smooth transition without compromising functionality.

IO Connect Services brings a team of seasoned experts to the table, putting our customers and custom-built solutions first.

DELIVERABLES

- **Growth Readiness Review**
Evaluation of deployment preparedness to support reliable, scalable expansion into new markets and regions by migrating to VMware Cloud on AWS.
- **Compliance Preparedness**
With new geographies come new regulations, requiring nuances to design and implementation to maintain compliance.
- **Planning Evaluation**
We ensure that your infrastructure is designed and implemented to facilitate automated scale-up and scale-down to meet business, seasonal, or marketing demands.
- **Improved Customer Satisfaction**
Well-architected implementations build trust with users and keep them coming back.
- **Documentation**
Outline the existing middleware architecture for clarity.
- **Security & Trust**
Evaluation of Architecture hardness, security best practices, and regional compliance and reporting expectations.
